Philanthropic Requests

Thermacell® provides products to selected nonprofit organizations for fundraising events. Thermacell receives hundreds of requests a year, and gives away thousands of dollars worth of product.

Solicitations for monetary donations will not be considered.

To request a product donation, submit the form below at least one month before the event date. U.S. only, please. Forms must be complete to be considered.

Request forms are reviewed weekly. Organizations selected to receive product donations will be contacted by phone or email. Organizations not selected for donations will not be contacted; there is no need to follow up.
